TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action.

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a *Quayle* action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

Continuation of 4(e) Other: The amendment to the claims filed on 8/26/10 is considered non-compliant because it has failed to meet the requirements for amendments to the claims.

Specifically, the following amendments to the claims in the claim listing filed on 9/2/10 are not amendments compliant with 37 CFR 1.121(c)(2), which states, "All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims."

In claim 1, a colon has been added following the word "comprising" on line 2 without the appropriate markings (underlining) indicating such.

In claim 1, a period is indicated as being added to the end of the sentence by underlining. However, a period was previously present at the end of the sentence, and nowhere is this indicated as being deleted by appropriate markings (striketrough).

In claim 3, the word "claim" in line 1 is marked with a striketrough for deletion. However, in these previous text of the claim this word was written as "Claim" (capitalized). Thus, the word marked for deletion should be written as previously recited in the claim ("Claim").

In claim 3, a colon has been added following the word "comprising" on line 6 without appropriate markings indicating such.

In claim 3, the numeral "i)" has been added at the beginning of line 7 without appropriate markings indicating such.

In claim 3, the period previously present at the end of the claim is indicated as being deleted in line 6. However, at the end of the claim another period has then been added without appropriate markings (underlining).

In claim 14, the word "Claim" in line 1 has been changed to "claim" without the appropriate markings indicating such.

In claim 14, the period previously present at the end of the claim is indicated as being deleted in line 6. However, a new period has been added following the word suppressing on line 8 without appropriate markings (underlining).

As a courtesy the following is also noted:

In claim 1, the term "cell-stimulating" is missing a hyphen when used on line 14 (first line of part (iii)). The other two instances of use in the claims have a hyphen.

In the last line of claim 3, the word "G protein-coupled receptor" is spelled without the hyphen (i.e., "G protein coupled receptor") that is used in each other instance in the claims.

In claim 14, line 1, a striketrough is present between the words "of" and "claim", which indicates a deletion of the space between the words (i.e., "ofclaim"). This will result in an objection to the claim.

In claim 14, it is noted that Applicants intend to delete the word "the" before each member of the Markush-type group (e.g., "the intracellular Ca2+ increasing activity" becomes just "intracellular Ca2+ increasing activity". However, it is noted that the word "the" has not been deleted from the last activity ("the lipolysis suppressing activity").

In claim 14, the term "cell-stimulating" is missing a hyphen when used on line 4. The majority of instances of use in parent claim 1 have a hyphen.
